ST.GEORGE SCUBA CLUB

The Club Committee is disheartened at the complete lack of interest that is being shown by most members. The Club was established for YOUR benefit and can only operate with your co-operation. If you are dissatisfied with some aspects of the running of the club, come along to a meeting and voice your opinion.

The Club's Annual General Meeting & election of officebearers for the 1978/79 year was to have been held on Wednesday, 20th September. Due to the lack of response of you, the members, it could not be held. In fact, no meeting was held and all business on the agenda has had to be carried forward to the next meeting (provided of course, that there are enough of you there).

This lack of concern is becoming more apparent in recent months and is beginning to affect the running of the Club. We realise that many people do not like diving in winter BUT, what prevents you from coming to the meetings? After all, it is only one night a month.. If this adverse trend does not improve quickly, the club will not be able to operate.

No dives were planned for this month.
