WHAT HAPPENED

Osborne Shoals

A beaut drive with big blue groper, and heaps of things to see along the rock wall.

BBQ Lunch At Bill's

Not all that many turned up, but the food and grog was on and the pool was in great demand. Thanks to Bill for a great day.

Bass Pt

Fantastic summer weather, encouraged about 12 drivers and the extras into the water quickly. Vis in the bay was only about 10 feet but there were a few fish to see. Three energetic (until they got back) divers swam to the arch and decided it was worth (almost) the swim there. Be careful about leaving gear around though. One member put his weight belt down and walked 200 yards to his car. It wasn't there when he got back and nobody down that end of the carpark had seen it.

Enlightening communication

One dark night the captain of a ship saw a light ahead. He told his signalman to send the following message by lamp, "Change direction 10 degrees south".

Shortly a reply was flashed back, "Change direction 10 degrees north".

The captain decided to apply a little pressure and told his signalman to send "I am a captain. Change direction 10 degrees south".

Instantly the lamp in the distance replied, "I am a seaman first class. Change direction 10 degrees north".

Enraged, the captain's next message was, "I am a battleship. Change direction 10 degrees south".

The distant lamp had the last blink, "I am a lighthouse. Change direction 10 degrees north".

The boat operator cancelled, however Les Caterson and Al Barning donated their boats, and those who went would like to thank them. There was lots of marine life, reefs, drop offs, and one of the highlights was catching a large anchor.

Montague Island

Bad weather, but what's new. Saturday morning dive had 30ft. vis or so and rough seas. Due to those rough seas, the dives on the seals were cancelled, so it was a fairly quiet weekend. Better luck next time.

15th Anniversary Dinner

Well represented with over half the club members there. The meeting was one of the years quickest and then it was to the food and wine.

JERVIS BAY

The fog had set in at the Docks but underwater was clear enough, (about 60ft) to see the shark of which one diver had said "You never see them here". The next dive had about 100ft vis. There were blue groper and one diver beached himself.

The Drum and Drumsticks was a brilliant dive, however, after repeated instructions as to how to find the wreck of "the Wanderer", everyone went off in the wrong direction. One diver on his own (naughty) did find it with the engines, prop and boiler sitting in the sand and it appears someone has been trying to get the prop off.

CLOVELLY

Only a couple of divers went in. Most thought the big seas the previous week were a problem. A westerley flattened the waves and vis. was about 20ft. They fed fish, blue groper and moray.

FAMOUS WOOLSHED DANCE

IT'S FAIR-DINKUM AUSTRALIAN FUN AND GOOD VALUE!

FORMAT

Arrive at 7.00 p.m. and you may have a free wine tasting until 8.00 p.m. at the Wine Cellars. This will enable you time to purchase any liquor requirements for the evening ahead. Cold wine, beer, spirits and soft drinks are available at our Cellars and there are refrigeration facilities at the Dance to keep your purchases cold. All purchases will conclude at 8.00 p.m.

At 8.00 p.m., the evening's fun starts as we adjourn to the Woolshed. The first course is Soup of the Day and Damper, followed by your second course, which will be served between 8.30 p.m. and 9.30 p.m. and consists of barbecued bush steak and a variety of

colonial salads (summer) or hot farm vegetables (winter), which is in turn followed by a choice of tempting desserts. Tea and Coffee are available after dinner. Also, corn on the cob will be served as a late night snack. Whilst dinner is being served, you can sing along or dance to the Bush Band. If you are a hearty eater, you're welcome to come back for a second serve!

The woolshed was in use up until the late 1930's with the original section being constructed around 1890 and having facilities for shearing about 2,500 sheep. In later years, it was converted into an all-purpose shed and dairy, but it still retains the flavour of its original use, with farm implements and artifacts of the by-gone era.

Vicary's famous Woolshed Dance is now in its 8th successful year and we are quite sure that you will have a great night's fun and entertainment as have many thousands of happy patrons in the past.

Your evening will conclude at 12.00 midnight on Friday and 12.30 a.m. on Saturday.

WRECK DIVE (VALIANT)

A very exciting dive was had by all. Visibility of 1 meter added a certain air of mystery to an old favourite dive spot! Marine life was prolific around the site... well... we assume it was out there some where in the green gloom. One diver was so impressed by the conditions he has requested we dive the same site next time they decide to dump from Warragamba dam!

PORT HACKING

The club dived with Les Caterson on Baron's Hut (You can too!! Dives run from Gunamatta Bay wharf each weekend. Phone 520 9421). Conditions were fine with a low swell. All the usual friends of the deep were there; Blue Groper, Wobbegong, etc. In keeping with a life long commitment to clean up the natural environment John Montgomerie salvaged an anchor and 2 discarded weight belts forsaking the greater part of his dive. Thanks John!

MONTHLY MEETING

Our thanks go to club member Tim Wong for his wonderful presentation on his personal involvement in Project Battleship. This was a project in which two wrecks, The Prince of Wales and The Repulse, were to have been dived with the purpose of resetting the ensign and holding a commemorative ceremony in honour of the 845 lives which were lost when the ships were sunk. As it turns out only one of the wrecks was dived, the Repulse. Penetration of the wreck, which lies at 200 feet, was not allowed as it is a war grave. Tim told us the story of Z force.

Z force was the name given to the group of ships which sailed from Singapore base late on 8th December 1941 in order to counter the Japanese invasion force which was increasing in strength in this area. It consisted of the flag ship battleship Prince of Wales, the battle-cruiser Repulse and four destroyers including the Vampire, an Australian vessel. Weather conditions were unfavourable to air reconnaissance and Z force were to return to Singapore if sighted by enemy aircraft during 9th December. This sighting occurred and the force began to return to Singapore. Reports that the Japanese had landed not far from their return course diverted the force. Investigation showed all was quiet in that area. Turning toward Singapore again the force were reported by an enemy submarine and located by Japanese planes on the 10th December. High-level and torpedo bombers attacked the force, sinking the Repulse at 12.33 pm and the Prince of Wales at 1.15 pm. The failure of Z force left Australia with a big security problem.....

28th August 1988.

Here's one for our more experienced divers...

JERVIS BAY

11th September 1988.

Two boat dives have been organised for the **Sunday**. Divers are to meet knee deep in water of Green Patch Beach at 8.00 am or earlier if you want to wait. Camp site A19 has been booked for the Saturday night, B.B.Q. facilities are available. Anyone interested in diving on the Saturday should make their own arrangements by contacting one of the local dive boat operators direct. Choice of dive spots for the Sunday will depend upon the weather conditions and any information on interesting spots in the bay presented by those who go on the dive.

WHAT WE DIDN'T DIVE

Annie M Miller - We were told the day before the dive the boat, 'she is no work', however we suspect the cancellation was due to an unfavourable report on diving safety from a coroners judgement about a diver dying during a dive on this wreck.

WHAT WE DID DIVE

Jervis Bay - Our typical J.B weather again for the first dive, with rough water, seasick divers and cloudy skies. Under the water was a little better - just. The fish must have decided to travel to bluer pastures.

A quiet dive at Bowen Island.

2nd dive - again at Bowen, but the conditions were better this time. Heaps of Port Jacksons were around and divers sought refuge in a cave they found. Thank goodness the vis was good.

MEXICAN RESTAURANT NIGHT - OLE'

Good spicy food was washed down with a quantity (large) of wine. 30 senors and senoritas did justice to the refreshments in a manner that Speedy Gonzales would have been proud of. A repeat of the night (not the food hopefully) may be planned for the future.

Officer in charge,
Sans Souci Water Police,
Harris Street,
SANS SOUCI.

Dear Sir,

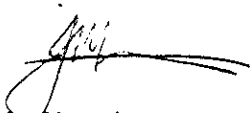

On behalf of the members of the St. George Scuba Club, I would like to confirm the previous verbal request to inspect the Water Police facilities.

Many of our members have boats with radios, and all of the members would be interested in safety and rescue techniques, radio communication, and emergency procedures.

I anticipate 20 members would be attending and we would prefer to visit on a Saturday or Sunday morning in late November, early December or the middle of January, if possible.

We realise the visit is subject to any emergency which may arise, and may be cancelled at the last minute. If the visit is approved I will liason with the officer organising the visit.

Yours faithfully,

Judy Morris

PAST DIVES

Montague Island

At last - a brilliant long weekend. There was however too much good food, wine, diving, sun, sand, fun, good times, and seals.

The water was a little brrr isk, but 16 divers swimming with a few of the hundreds of seals soon warmed up. Thank goodness the seals were close because the vis was lousy. The low flybridge on one of the boats made a good jumping off point for three divers. The quality accomodation did not attract a few female members, who during the day felt it necessary to sunbake (nearly all) on the beach opposite.

The following is the censored version of all the good for gossip things that happened.

- If only I could tell.

Shell Harbour

Was changed to Wollongong due to warf restrictions. The sun was out, the vis hopeless, and the current ended up giving two divers a free trip towards Newcastle. Once at the bottom, we saw a weight belt on the rocks and one diver beginning a ride to the surface. In true style it was panic stations until both were reunited about 20 seconds later. Nudibranchs, soft corals, a few fish, cuttlefish and kelp were the other sights.

The second dive caught the N/E in full force and caused the water to ruffle a little, and there was almost as much water in the boat as out of it. We thought it was to be a tame dive until eagle eyes spotted 'abalone' - (but don't tell anyone).

DIVES TO DO SOON

Broughton Island - Sunday 30th October.

As the tides are suitable on Saturday, we will be having a dive under the Swansea Bridge on the way up to Port Stephens.

Meet at the Swansea Dive Shop at 12.30 pm. The dive shop is located on the left just before the bridge and near the boat ramp.

This is an excellent dive and well worth the effort. Tanks can be filled at the dive shop after the dive.

On Sunday morning the boat will be departing from the charter boat warf at Nelson Bay at 7.15am (don't forget about daylight saving).

The warf is located a few hundred metres East of the Nelson Bay shopping Centre along Victoria Parade.

On Saturday night we will be camping at the Bardouroka Caravan Park at Fingal Bay (049 811 473). Please note: It is the responsibility of each club member to pay his own camping fees.

Two tanks will be required on the Sunday, as we will be at the Island for the full day. Bring fishing gear if desired. Skipper: Bill Graham (049 813 634) Cost: \$25.00 for two dives. For bookings, ring Geoff Sanders on 526 2424(H) or 211 2499(W).

Port Hacking (Osborn Shoals) - Sunday 13th November.

Meet at Gunnamatta Wharf at 8.00 am.

Cost: \$15.00 one dive

For bookings, ring Geoff Sanders.

COMING UP

Ulladulla Saturday and Sunday 19/20th November.

We will be camping at the "Ulladulla Caravan Park" (PH. 044 522 457) on Friday and Saturday nights. Please Note: It is the responsibility of each club member to pay his own camping fees, ~~and be out of caravans~~ by 10.00am on Sunday morning.

Directions: Take the first street (South St.) on the left after passing the "Marlin" Hotel at Ulladulla. The gates to the Camping Area will be closed at 10.30pm.

Cost: \$45.00 for four dives.

Tanks can be filled between dives at the Ulladulla Dive Shop.

LAST MONTH

Broughton Island

There were two relaxing dives on the day. A large blue groper was fed, divers swam in the cutting between the islands, sponges were seen, but there was not much fish life. Maybe it had something to do with the murdering between dives activity with spearguns.

Osborne Shoals

The surface was rough but 60ft down it was ok. Vis at the bottom was good, and a moray and groper were given a free breakfast.

Sans Souci Water Police

Thank you to those who booked and 'forgot' to or couldn't make it. The 8 who were there had a good look at their communication equipment and a 20 min ride in their large launch with a detailed explanation of its capabilities and their duties.

The Government is planning to close down all Water Police and have the services they provide (rescue especially) organised by volunteers.

We should do everything we can to ensure this vital facet of police work is kept.

Abalone

Unfortunately two members found out the hard way of the ever changing regulations concerning this particular delicacy. If you plan to get some, CHECK REGULATIONS FIRST.

At the moment its important to know:

- 1) 10 shell per person limit.
- 2) Shell size in length must be at least 11.5cm.
- 3) They must be measured under water with a scale while still attached to the rock.
- 4) They must not be cleaned on site at the beach or dive site.
- 5) They must be taken straight home and cleaned there.

These rules give you an idea that its not as easy as you'd think.

So be careful and check first. Fine is up to \$2000.00.

Raw fish fingered in disease

BOSTON: The popularity of sushi has apparently triggered an upsurge in a once-rare parasitic disease in which victims who eat the trendy raw fish dish sometimes cough up a live worm.

Doctors from the University of California and the Food and Drug Administration said at least 50 cases of the disease anisakiasis had been reported in the US, with a majority occurring since 1980.

"This is probably only the tip of the iceberg, because the infection is diffi-

cult to diagnose," said pathologist Dr James H. McKerrow.

In a letter published in The New England Journal of Medicine, Dr McKerrow warned physicians to be on the lookout for the disease and urged sushi lovers to be careful.

"Much of this increase can be attributed to changes in our dietary habits - for example, the introduction of raw fish dishes such as sushi and sashimi and the current trend of cooking seafood for shorter periods," he wrote.
