# JANUARY '91

---

It's great to see our members starting to come along to meetings once again and with our promotion campaign we're seeing new members joining every week. Many thanks to John Gordon for showing another selection of his underwater shots in and around Sydney waters at the January meeting.

It's great diving weather - let's see more members attending our dive weekends this year. If you haven't dived for a while we have experienced members who will support you and make your dive an enjoyable experience.

## *Past Events*

KURNELL - CAPE SOLANDER

Sun 13th January.

As Cape Solander was a bit rough, the venue was changed to Inscription Point where it was flat and easier for entry. The water was warm and vis about 30'. Lots of coloured nudibranchs were seen along with weedy sea dragons, cuttlefish, morays and a couple of small stringray. A lazy BBQ in the picnic area was enjoyed afterwards.

### *Technical Information*

#### TANK REPAINTING

Divers inclined to improve the appearance of their blemished scuba tanks by scraping off old chipped paint and applying a new coating of paint - maybe iridescent yellow, bright white or red - should know it's important to use caution.

The metal properties of scuba tanks should be carefully taken into consideration when giving tanks a facelift.

Tank manufacturers recommend not painting your tanks because of the special process the cylinders must go through.

But for those divers who insist on a new paint job, the following recommendations are offered:

- Never use a heat process or caustic paint strippers to remove old paint. Heat destroys the molecular structure and the cylinder may burst under high pressure.
- Avoid any paint process which involves elevated temperature curing.
- Any cylinder which has been subjected to elevated pressure paint or that has been exposed to heat from a fire or other source must be removed from service and hydrostatically tested.

- Also remember that most new cylinders have a galvanised coating to protect the metal. If this protection is removed, it could cause unnecessary stress to the metal surface.
- The appearance of most tanks can often be dramatically improved with soap and water, solvent wipe or scotch-brite scrubbing.

*Leave the repainting for the experts!*

## ***Warning***

### **US DIVERS SAFETY RECALL**

A potential safety problem may exist with a very small number of high pressure seats used in US Divers regulators manufactured between 15th - 22nd August 1989 or in US Divers regulators serviced since then.

If you own a US Divers regulator purchased new since 15th August 1989 or one which has been serviced since 15th August 1989, please bring the regulator in the centre so that we can check it for you. This safety check is very simple and is free of charge.

### *Past Events*

#### ULLADULLA

Sat. 26th-Mon. 28th January

Australia Day Long Weekend

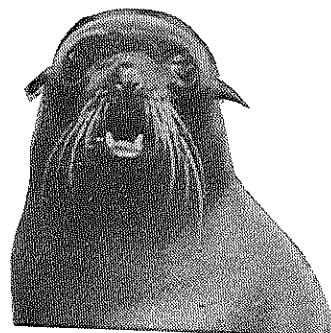

We had excellent weather conditions for this weekend which is always so popular with our members.

Saturday at Birrell Rocks was the first diving venue and what a day!

Visibility was about 70'-80'. There were *Large* Blue Devilfish ... *Large* Cuttlefish ... babies too ... lots of *Large* Morwong ... *X- Large* sting rays ... In fact you could say it was a big day all around! Combined with swim-through's and caves it was a great day for divers at any level of experience.

Sunday was similar with diving at "The Arch" and the "Lighthouse Wall". Once again lots of fish and big marine life. On Monday we dived on the sponge gardens where divers enjoyed the colour and variety of the corals, sponges and gorgonia fans.

*\*Note : Next time you dive "Home Bonmie" make sure you don't miss the baby seal in the cave ... he's really cute !*

#### PORT HACKING

Sunday 17th February

As there was a south-westerly blowing divers decided to go to Jibbon Point where they encountered some wobbigongs and sea dragons.

### *What's Next*

#### BROUGHTON ISLAND

Sunday 3rd March

On Saturday we will be having local dives around the Port Stevens area . We will be camping at the Bardouroka Caravan Park (Tel:049 811473) at Fingal Bay on Friday and Saturday nights.

*Please Note:* It is the responsibility of each club member to pay his own camping fees.

On Sunday the boat will be leaving from the 'Charter Boat Wharf' -Nelson Bay at 9.30 am.

The charter boat that we will be using is called "KRISTINA LEE" and belongs to Action Divers at Nelson Bay. ( Ph:049812491-Anne ).

**Cost: \$45.00 for 2 dives ( includes second tank ).**

For bookings ring Geoff Sanders on ( H ) 526 2424 or ( W ) 211 2499

Cost: \$30.00 for two dives

Bookings for the above two dives will commence at the March Club Meeting, and afterwards by phoning Geoff Sanders.

## *Clean Up Australia Campaign*

This year's Clean Up Australia Campaign will be taking place on Sunday 24th March.

The Organisers have suggested our club concentrate on Tonkin Wharf which is directly opposite Tonkin Oval just to the left of Gunnamatta Bay (a small map for non-locals is provided).

We would like to see lots of our members supporting this campaign as I feel we can contribute quite a lot as a group for our community and also turn it into a great social day ... perhaps a barbie might be the go!

We also need the help of members not wishing to dive and non-divers who can also help above the water (you don't even have to get wet!)

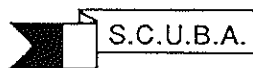

Further details will be at the next Club Meeting on the 20th March.

## *Gear For Sale*

1 Combo Gauge - depth and pressure / Decor/ good condition ... only \$50.00

Ring Robert Mapstone ( H ) 520 5346

### *Past Events*

#### SHIPWRECKED SEMINAR

Quite a few members turned up for this event. Very informative with 6 speakers including Ben Cropp relating their experiences on various popular wrecks in Australian waters and overseas.

#### BROUGHTON ISLAND

Sunday 3rd March

On Saturday Rodger, Carol and Robert dived Fly Point. The water wasn't too clear as the seas that day had been fairly high. However the diving was excellent on this popular marine garden - with heaps of fish.

On Sunday we went out with Action Divers and 1st dive was on the wreck of the "Oakland" which lies in just under 100' of water. There were two morays on the wreck and lots of Catfish but the school of very large Pufferfish lent an eerie feeling to the old wreck which still has quite a lot left to see and explore.

2nd dive was at Little Island but as the seas were still rough the visibility was limited with the outgoing tide.

#### CAMP COVE - NIGHT DIVE

Friday 8th March

It was a still night with warm water and good visibility (depending on how good the torch batteries were), and all 7 divers had interesting marine life encounters. There were cuttlefish, octopuses, shovel nose crabs, blue swimmer crabs, giant prawns, sea-horses, squid, sole, - a very interesting dive and easy for beginners. However no nudies were seen at all!

#### LONG REEF

Sunday 17th March

We dived "The Wall" which is always good diving. Vis was about 25' which probably accounts for Beydon and Victor being slightly disorientated and coming up quite a distance from the boat. Divers saw wobbies, cuttlefish and big friendly groper as well as a moorish idol.

## *What's Next*

### CURRARONG

Friday 29th March to Monday 1st April

We will be camping at Currarong Caravan Park (044 483 027) on Thursday, Friday, Saturday and Sunday Nights. **Camping Fees will cost \$20.00 for four nights.** We will be diving with "Currarong Dive" (044 483 244 - Rod Carroll).

*Directions:* Turn off the Princes Highway, south of Nowra at the "Leprechaun Hotel" and follow the Currarong signs to the caravan park.

Our campsite is on the left side of Nowra Road. After passing through the boom gate, turn left and proceed to the end of the road, we will be camping on a slight hill near the BBQ's. Bring some food suitable for BBQ ing. If arriving late at night, collect a gate entry card from someone at the campsite, rather than calling at the office.

1st dive on Friday morning will leave Bosom Beach at 7.30am. Tanks can be filled at the caravan park.

**Cost: \$72.00 for four morning dives** (afternoon dives extra).

For bookings, ring Geoff Sanders on 526-2424 (H) or 211-2499 (W).

### WOLLONGONG

Sunday 14th April

Meet at the Wollongong Harbour Boat Ramp (near the Lighthouse) at 9.30 am.

## APRIL '91

### Past Events

#### CURRARONG - EASTER LONG WEEKEND

The weather was great and diving conditions superb for the annual romp down to Currarong. Dive spots were the "Shark Gutters" - lots of blue - devils and cuttlefish, "Pilgrims Hat" - Geoff and Steve encountered a small grey nurse, "Drum and Drumsticks" and "Mosquito South" - Tim saw a grey nurse about 6'-7' long while he was Abolone racing - however ...there were no mosquitos. Lots of swimthroughs which can be great fun when you have clear water as we did this weekend.

Some divers were keen to spear some fish for the barbie so Sunday night we enjoyed marinated Abolone and lots of fresh fish wrapped in foil and stuffed - *yummmmm....!*

#### WOLLONGONG "THE BOMBO"

Vis was about 50' on the wreck itself. Lots of fish life and a particularly large jelly-fish was seen cruising around.

2nd dive was at Toothbrush Island - sea-caves and cuttlefish.

### What's Next

#### TERRIGAL

Saturday and Sunday 27/28th April

We will be camping at the "Sunny Corner" Caravan Park (PH: 043 842 211) on Friday and Saturday nights. The caravan park is located about 3km west of Terrigal Post Office on the corner of Terrigal Drive and Duffy's Road.

The dive shop is located in the sailing club building at "The Haven" and is run by Les and Fran Graham (PH: 043 841 219)

Meet at the dive shop at 7.30 am on Saturday morning for the first dive.

**Cost: \$55.00 for three dives**

For bookings or further information, phone Geoff Sanders on 526-2424 (H) or 211-2499 (W).

*Please Note: It is the responsibility of each club member to pay his own camping fees.*

## FORSTER/SEAL ROCKS

Saturday 8th to Monday 10th June  
(Queen's Birthday Long Week end)

Cost \$100.00 for four dives.

Bookings commence at the May club meeting and afterwards by phoning Geoff Sanders.

## VICARY'S WINERY AND BUSH DANCE

Saturday 22nd June

It's nearing that special time of the year, when we have our annual pilgrimage to Vicary's Winery.

Cost \$40.00, *includes return coach transport, wine tasting, dinner and bush dance.*

The dinner and bush dance are held in an original wool shed with blazing open log fires creating a great atmosphere. Friends of members are most welcome to join us. Bookings will commence immediately by phoning Geoff Sanders. All monies must be paid by the June club meeting.

Arrive at 7.00 p.m. and you may have a free wine tasting until 8.00 p.m. at the Wine Cellars. This will enable you time to purchase any liquor requirements for the evening ahead. Cold wine, beer, spirits and soft drinks are available at our Cellars and there are refrigeration facilities at the Dance to keep your purchases cold.

At 8.00 p.m., the evening's fun starts as we adjourn to the Woolshed. The first course in winter is soup of the day and damper, followed by your second course, which will be served between 8.30 p.m. and 9.30 p.m. and consists of barbecued bush steak and a variety of hot farm vegetables which is in turn followed by a choice of tempting deserts. Tea and Coffee are available after dinner. Also, corn on the cob will be served as a late night snack. Whilst dinner is being served, you can sing along or dance to the Bush Band. If you are a hearty eater, you're welcome to come back for a second serve!

The Woolsheds was in use up until the late 1930's with the original section being constructed around 1890 and having facilities for shearing about 2,500 sheep. In later years, it was converted into an all-purpose shed and dairy, but it still retains the flavour of its original use, with farm implements and artifacts of the by-gone era. Your evening will conclude at 12.00 midnight on Friday and 12.30 a.m. on Saturday.

*P.S. Neat casual dress or bush attire is advised, with low heels for the ladies. A fun night is guaranteed for all.*

We would like to send a special thankyou to all the members who contributed some time on the "Clean Up Australia Campaign" and also to Keith Philpott who did so much work to organise our clubs responsibility for that day.

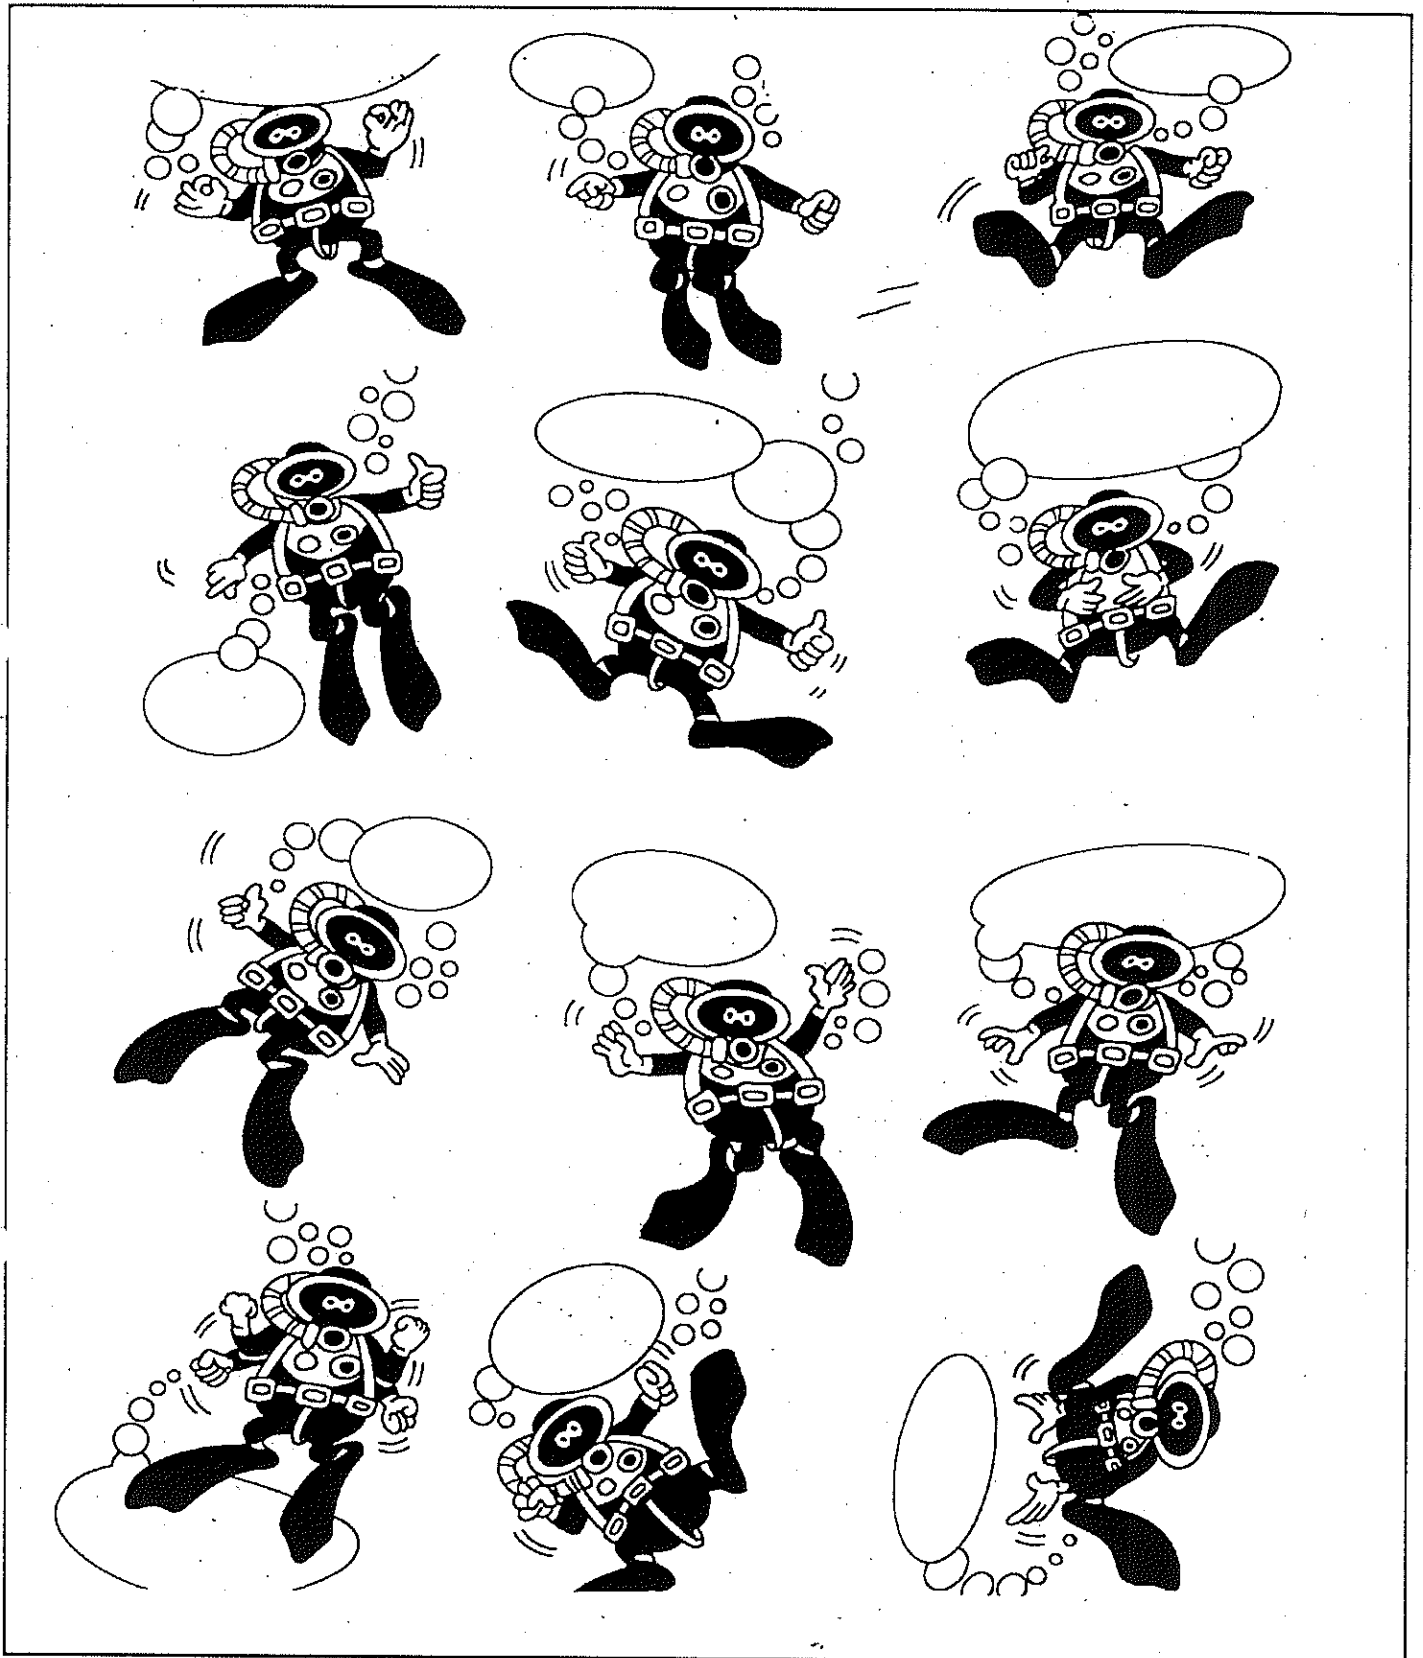

The Committee would also like to take this opportunity to welcome all our new club members and hope to see you diving with us soon !

### *Special Note*

*Next meeting Duane Yates will be talking to us about the latest methods in "Diving Safety".*

*We hope to see you there because this is a very important area of diving which a lot of us tend to disregard*

*The next meeting will be held at Georges River Sailing Club on Wednesday 15th May at 8.00pm.*

*What is your buddy saying ?*

*Fill in the word bubble and bring it to the next meeting!*  
*(This is not a test -colourful comments welcome !)*

### SHELLHARBOUR/BASS POINT

Sunday 26<sup>th</sup> May.

Rodger, Robert, Donna & Carol went on this popular little rock hop. Bushrangers Bay was the final venue with vis about 25'-30'. A weedy sea-dragon was seen along with some very colourful hard coral which as yet has not been identified! A BBQ was enjoyed after the dive.

### FORSTER SEAL ROCKS

Queens Birthday Long Weekend.

Unfortunately due to heavy seas our planned dives did not eventuate. On Saturday after some thrills and excitement getting through the bar at Forster we managed to get a dive in at a place called "Spot A". The water was warm - depth about 80' with some surge at the bottom, however once you adjusted to the surge the dive was nothing short of spectacular. This reef was absolutely abundant with fish life, walls of yellow tail - sparkling and shimmering in the light, moray eels, morwongs, wobbigongs and heaps of blue grouper. In fact the grouper were so friendly Steve Shaw managed to take home some teeth implanted in his finger at feeding time.

On Sunday the seas had become much worse - 2 metres high, very choppy and raining as well. The dive programme had to

be cancelled, however we had a great social weekend anyway - BBQ and camping facilities were great and we all enjoyed having a break away from Sydney.

#### VICARY'S WINERY

Sat 22nd June

A night of merriment was had by all at our yearly Bush Dance Bash. Perhaps next year we can organise our own Bush Dance and caller for a change. Those members interested please let the committee know before the next calendar is planned.

#### PORT HACKING

Sunday 30th June

8 divers went out with Les Caterson to Osborne Shoals to try their skills with some underwater scooters which the club hired for the day. As there was a heavy surge caused by the southerly swell the first 4 divers took advantage of the scooters to enable them to move more freely and have some fun. Due to the reserve batteries not working the other 4 weren't so lucky and had to content themselves with a normal dive. The day proved popular however and everyone wants to try it again with more scooters next time.

#### WRECK DIVE VALIANT

Sunday 14th July

The weather was fine with a light southerly breeze. Visibility was about 50' on the top but because of an intermittent surge the vis was reduced to about 25' on the bottom. However the wreck could be viewed in full on approach. 6 divers attended including 2 of our newer members - John Dinnie and Martin Sunner. Good winter diving!

- 2) Warm clothes
- 3) Sleeping bags
- 4) Pillow slips
- 5) Towels
- 6) Food
- 7) Small bushwalking Day Pack ( optional )

*\*We will probably have dinner out on Saturday*

*Night - not expensive*

Major attractions in the area include, Govett's Leap and the Bridal Veil Falls, Evan's Lookout, Anvil Rock and the Wind Eroded Cave, Hanging Rock, *plus* Hargreaves Lookout where visitors

can obtain spectacular views of the valleys which surround Blackheath.

Mount Blackheath Lookout has magnificent views over the Kanimbla Valley. There are a number of interesting arts and crafts, as well as antique shops at Mount Victoria. Tea Houses which serve delicious Hot Devonshire Teas (freshly baked scones, blackberry jam and cream) are located at Blackheath, Mount Victoria, Mount Wilson, Megalong Valley, Leura and Wentworth Falls. Blackheath also has some of the best bushwalks in the Blue Mountains. These include the Grand Canyon (2.5 hours), Porters Pass and Centennial Glen (2.5 hours), Mermaid's Cave (30 mins), Perry's Lookdown - Blue Gum Forest - Perry's Lookdown (4 hours).

**Cost: \$20.00 (two nights accommodation)**

## ***Offshore Sandmining Off Port Hacking and Botany Bay***

The Kurnell dunes, Sydney's traditional source of sand are planned to close. The present Government has granted a number of licences to Ready Mix Industries to explore the possibility of Sandmining Offshore (see map enclosed).

The company plans to operate a 100m long ship with a capacity of about 4000 tonnes of sand. The vessel will cruise up to 2 km offshore at a speed of 1 knot, sucking up sand from the sea bed. It will make two runs per day, removing 8000 tonnes each day every day. If this lease is granted it will be for 10 to 20 years.

Can you imagine the damage this will cause to our beautiful unspoilt area?

The Port Hacking area has the cleanest water in Sydney, but if this vessel is allowed to operate, the sediment from this giant vacuum cleaner will effect the whole area.

The long term effect on marine life and sand movement at our beaches, from the dredging is something that no team of specialists (hired by Ready Mix) can ever predict. Dive and recreational fishing boats will be at risk, with this vessel working so close to the coast.

The wrecks of Undola, Tuggerah, Woniora and Kelloe are also in the exact path. These wrecks have been used by divers and fishermen for years and may be lost and damaged forever. It must be stopped now, there are alternative sources of sand. Ready Mix Industries are also looking at the Blue Mountains, and this sand could be brought back to Sydney by train.

Within 6 months Ready Mix will present its findings to the State Government. The time to act is now, and this can be done by writing to express your concern to:

The Minister for Minerals and Natural Resources  
Mr Ian Causley  
Parliament House  
Macquarie Street  
SYDNEY NSW 2000

*John Gordon is interested in an extended weekend trip (Friday-Monday) to South West Rocks and Fish Rock Cave - possibly in September! If anyone is interested in joining him, could they please contact him on (H) 588 7268 or (W) 588 6333.*

### ***Special Note***

*Dr Carl Edmonds has stated that unless a diver can swim 200 metres in 4 minutes he/she is not fit to dive safely.*

*So make sure you get into a good exercise programme if you want to continue to dive safely and comfortably this season.*

*The next meeting will be held at  
Georges River Sailing Club on  
Wednesday 21st August at 8.00 pm.*

## IMPORTANT NOTICE

urge all members to read the notice included in with your letter. It's very important that we all write to the minister let him know our feelings about the proposed licence to sand off the National Park and Kurnell. You can either write your letter, or you can sign the letter that I have written and send in yourself.

JOHN GORDON (President)

-----

Minister for Minerals and Natural Resources,  
Ian Causley,  
Parliament House,  
Quarie St.,  
SYDNEY NSW 2000

Dear sir,

I \_\_\_\_\_, am writing to voice my strong opposition to a proposed licence to "Ready Mix Industries" allow offshore sandmining off Port Hacking and Botany Bay. I am an active SCUBA Diver and a member of the ST GEORGE SCUBA CLUB. I am regularly in the proposed areas as well as many other places. I am therefore, one of a small percentage of the population who sees first hand, the environment which will be devastated and repair, the damage to many forms of marine life, animal and plant, and devastation to several fishing grounds and ship wrecks. I urge you not to grant this Licence, and consider the other proposed sites which will not cause as much irreparable damage.

Yours Sincerely,

\_\_\_\_\_.

# OCTOBER '91

## 1st Month

### MONTAGUE ISLAND

5th - Mon 7th October.

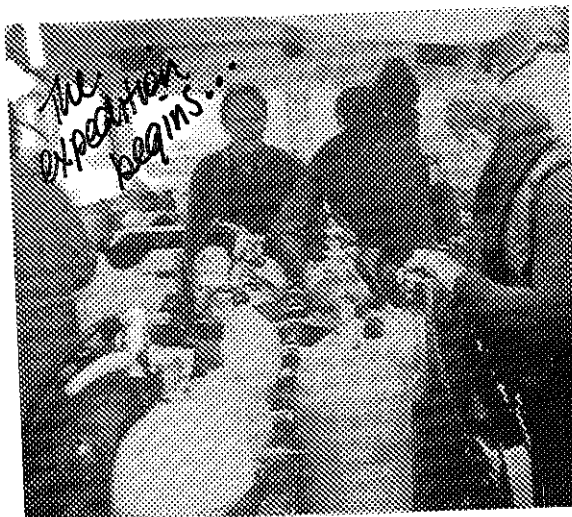

Saturday we dived the eastern side of Montague Rock with Charlie Bird. There was a heavy sea mist which, combined with the choppy seas gave an almost eerie quality to the day. We found a large cave on the sand which was about 3 metres across the face and went back about 10 metres into the rock. Several large grouper were seen and some small swimthroughs. Water was cold - about

10°C. A little spot where they could best observe the antics of the seals - and what a performance - nothing short of spectacular. This would have to be one of the best dives we've had here!

The second dive was on the eastern side of Montague in a sheltered bay. Here there were Port Jackson sharks in abundance and 2 huge wobbies were also seen.

On the way back to the mainland we enjoyed watching the abundant bird life which was massing over the huge schools of fish moving just under the surface of the

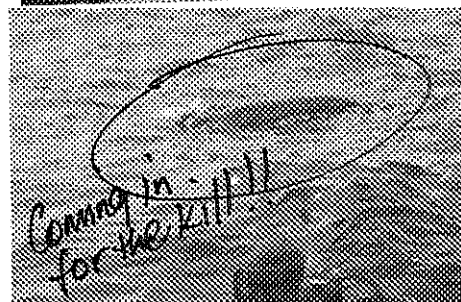

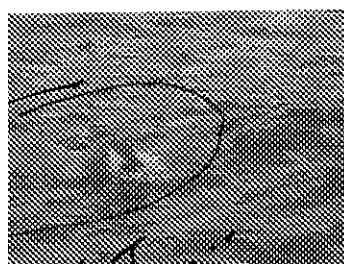

water. Sunday the mist had cleared and we set out on a calm sea to Montague. On approaching the northern tip of the island we were delighted to see masses of seals swimming and playing in the water. Visibility was at 40' and although the air was cool all divers agreed to find their own

water.

The social side was also great this weekend which included a little celebration for Geoff's birthday (see pictures) on Saturday night!

## *Special Guest Speaker*

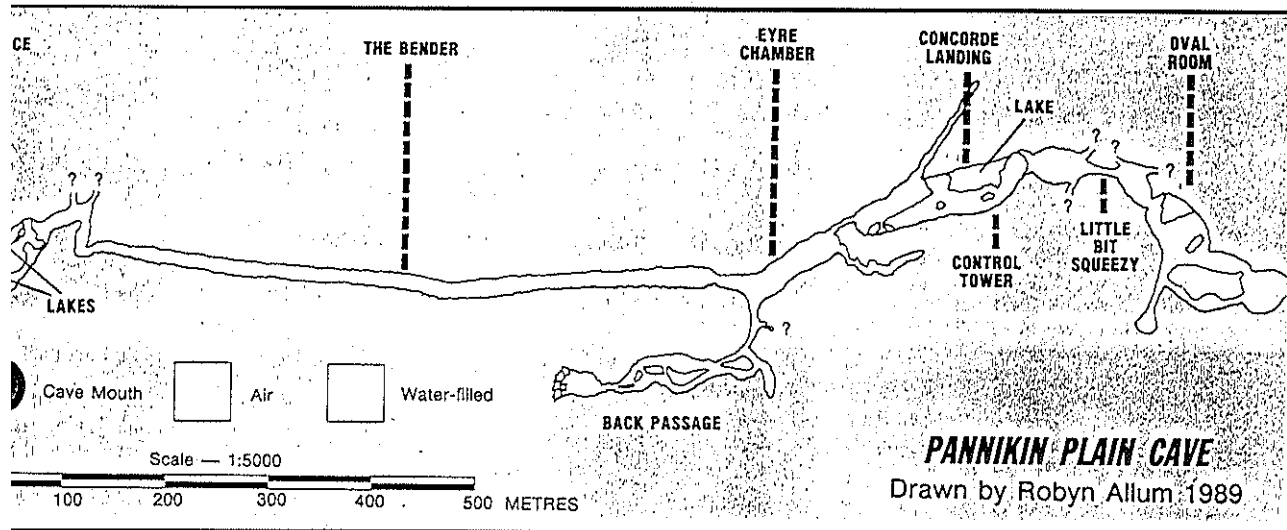

At the November Club Meeting our special guest speaker will be

# **Andrew Wight**

**LEADER OF THE EXPEDITION TO THE PANNIKIN PLAIN CAVE DIVE IN 1988.**

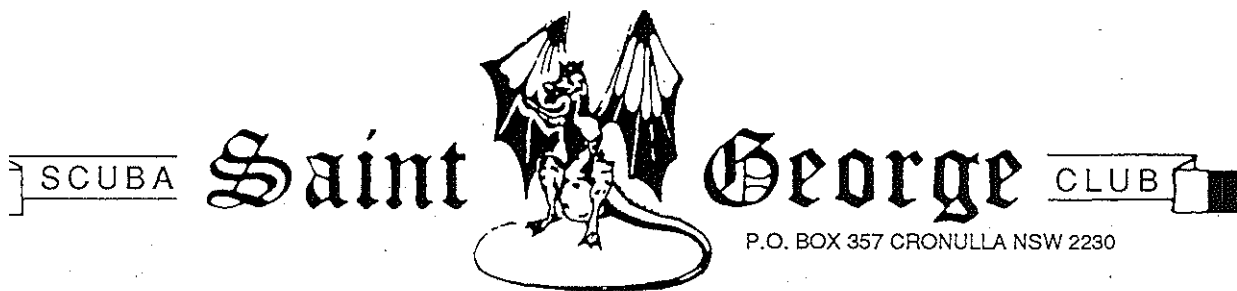

Pannikin Plains Cave is near a lonely wayside roadhouse called Rocklebidly, 1600 km west of Adelaide. It is a deep cave which extends from a small lake one hundred metres below the surface leading off into one of the deepest and longest underwater systems in the world.

*"Cave diving is unlike any other pursuit. In a world where many other frontiers have already been pioneered, cave diving presents the most exciting challenge into the unknown. It is true exploration - each discovery is a first. It also provides glimpses and experiences of places where no humans have ever been before. It is this that attracts cave explorers to a place like Pannikin Plains Cave".*

**Don't miss this chance to meet one of the most exciting  
and experienced cave divers in Australia today.**

*This meeting will be held on Wednesday November 20<sup>th</sup> at

the pool - floodlit, and to top it off an  
abundance of marine life to enjoy. The divers  
encountered port jackson sharks, some small  
stingrays, pufferfish, flathead, flounder,  
nudibranchs feather stars and some long  
spindly things which as yet we haven't been  
able to identify (maybe one of the divers can  
explain the phenomenon?). The dive took  
about 50 minutes and Beyden followed the
